PEACE THROUGH GOVERNANCE

One Earth Future Newsletter

July 2009

Welcome to OEF's Quarterly Newsletter! For our very first newsletter we are excited to announce that [our website](#) is finally up and running. Please stop by and take a look at what we are doing now.

To get you started, we'd like to mention a few highlights:

- [Our Vision](#) gives a quick look at the ideas that are driving our work.
- [Projects](#) shows the areas where we are actively engaged in implementing our vision.
 - [Maritime Piracy Project](#): After a significant amount of time spent examining the myriad issues we wanted to tackle, we decided to focus on Piracy as the area where we could get the most traction and have the highest value-add. With this project, we have envisioned a governance model for stopping piracy that would be funded by industry players, include all stakeholders and be highly beneficial to all involved (except the pirates!).
- [Publications](#) connects you to the papers we've written, including a [presentation paper](#) with a few key OEF ideas that was presented at a United Nations University conference and a [case study](#) on the Forest Stewardship Council as a model of alternative governance.
- [Events](#) lists upcoming events that OEF is either running or otherwise connected to.

The Events list is relatively small right now, as we are just getting started, but we expect that will change very quickly in the next couple of months as we gain traction on these issues. If you would like to stay informed of our most exciting developments, you can sign up for our quarterly newsletter [here](#).

We are very excited to finally be up on the web, and hope that you take a moment to come check us out. We will be updating quite a bit in the next few weeks and adding features, so keep checking back to see new improvements and job opportunities.

Please let us know if you have any comments or questions about our website.

Thank you for your interest!

Sincerely,

The OEF Team
